

Districts May Pay Taxes

Tax free-loading municipal utility districts are contributing markedly to the fiscal difficulties of California's hard-pressed school districts and must be forced to assume their rightful tax obligations, Assemblyman Sheridan Hegland, Democrat of La Mesa, declared today in advance of hearings this evening

in the Assembly Education Committee on his measure to require municipal districts to pay school taxes in the same manner as private business. Hegland's measure, AB 394, provides that publicly owned utilities be assessed by the State Board of Equalization and pay taxes to school districts.

Q. What household servant still works for just pennies a day?

A. Electricity

"EVEN THOUGH prices and wages have steadily gone up and up," explains Reddy Kilowatt, "a kilowatt hour of electricity costs less today than 20 years ago." (Bigger bill? That's because you're using more and living better electrically.) Small wonder electricity is your biggest bargain in modern living.
